As he has ent activities until he has both written delegated ning requirements for the applicable procurement No. 2010-05. This approval is conditioned upon the was necessary to determine the need for removal of

Nature of the Emergency:

On November 4th, 2010, two (2) boulders apparently fell from State owned land and damaged a private homeowner's residence located at 942 Ahuwale Place in Aina Haina, Oahu. Fortunately, no one was injured and the only damages incurred were to the structure. One boulder struck and blew a large hole in a CMU wall (See Attached Photo Nos. 1, 3 & 4). Upon impact the boulder split into two pieces (See Attached Photo No. 3) The other boulder struck the exterior siding of the home with minimal structural damage (See Attached Photo No. 2). On November 5th, the DLNR Engineering Division (ED) office was notified of the rockfall incident and an inspection of the site was conducted that day.

According to the home owner this was not the first rockfall to occur at this residence. Because of the past history and the rainy conditions (common cause of rockfall events), ED mobilized AECOM Technical Services, Inc. to conduct an Emergency Rockfall Hazard Assessment to identify potential rockfall hazards on November 5th, 2010.

Description of Goods, Services or Construction to be Purchased:

Services shall include but not be limited to conducting a study of the State land assessing potential rockfall hazards in the immediate area; development of alternatives to mitigate the rockfall potential and associated construction costs for each alternative.

Also, should the study find that immediate interim measures be necessary to protect the homeowner, services shall also include the design of these interim mitigative measures.

Reason for Vendor Selection:

AECOM Technical Services, Inc. has provided similar services for DLNR on other projects and has always produced excellent work. They are highly qualified; have the required expertise on this type of specialized work; and most importantly, they were readily available.
